

Daily Work Report Format						
Date	Candidate Name	Project Assigned	Task Description	Working Hours	Work Done Today	Comments/Note
06-06-2025	Arambh Chitriv	Learning	03:00 pm - 04:30 pm Today, I collaborated with the AI/ML team on refining the chatbot’s response system in one of our ongoing projects. We primarily focused on analyzing how the chatbot processes and responds using the custom data provided by Sumedh sir. Our discussion revolved around how the current response flow can be enhanced using more structured and context-aware data inputs to make the chatbot more intuitive and aligned with user expectations.	4 hrs		
					Done	
		Learning	04:30 pm - 07:00 pm Later, we had an extended conversation on how to create and organize a proper dataset to support this. We discussed various approaches for structuring the data — including intent tagging, sample prompts, and embedding context information — to ensure consistent and meaningful chatbot replies. This conversation will help guide the next steps in dataset development and model fine-tuning.		Done
